I) Project Description

1) Project Overview

This project aims at providing the unheard artists a platform to showcase their talents.

2) The Purpose of the Project

Social media platforms are an excellent means to showcase one's true talent hence creating a project. The purpose of the project is to help people come together on a social platform and develop their artistic side. The people will be able to publish their content on a large scale. They will be able to improve their skills through constructive feedback provided by the audience.

3) Goals of the Project

- To provide an interactive portal easily accessible by both the artist and the audience.
- To be able to host the content published by the artist.
- Provide the ability to share their favourite work with friends.
- Create a review based system of recommendations.

4) Tools

HTML, CSS, PHP, SQL, Apache Server

II)Abstract

Problem Statement

Artistify is a project that aims in developing a platform for the unheard artist to showcase their talent. There are not many platforms for these artists. This project has many modules like upload , notification , Favourites, homepage, search and review.

Problems and solution

Manual process of keeping users uploads is very difficult. The problems while creating the website were slow upload speed , lack of quality of images , storing user details. The solutions to these were we created a database to store the user and upload details.

Technique used

- 1) Keep it super simple: The main objective is to keep the website easy to interact with. Also, applying the principle, users will be surprised by the fast-paced atmosphere and assists them in quickly finding what they view for.
- 2) Well quality typography comes from the experience of what other e-commerce web design services have done. Give decisions based on this experience. So, here we stuck with simple forms. Effective web design techniques make users experience more pleasurable.
- 3) The most important thing is that the navigation buttons should like, well, navigation buttons. Moreover, the text on them should explicitly state where the button will take a user. Make sure the buttons work and are available for navigation.

- 4) To ensure navigation from one site to another site works smoothly.

Programming Technique

Php is a server side scripting language used to develop static websites or dynamic websites. Php can handle forms i.e. gather data files from files , save data to files. You add, delete, modify elements within your database through PHP. HTML and CSS are two of the core technologies for building web pages. We have used bootstrap in this project as it is a potent front-end framework used to create modern websites

Goals

Overall this project of ours has been developed to help the budding artists all over the world that provides a forum to exhibit one's true talent. Since it is an online platform, this gives the users easy access at any time of the day instead of the traditional approach of having to showcase talent face-to face especially taking the current global pandemic into consideration, hence keeping the artists busy and ensuring the safety of the audience and artists.

III) Modules

1) Login/Logout

The login will take the user to his/her profile. Each user will have a separate page from where they can control their activity.

2) Homepage

This page will display all the options available to the user. Navigation panel will contain the options of Upload , Searching , Sharing , Notification and Favourites.

3) Upload

Lets the user upload their desired content to the website.

4) Search

Lets the user search for the content of their choice. Content can also be found by searching the name of the artist.

5) Reviews

Lets the user view the feedback provided by other users on their content. Each uploaded file will contain the option to write a review for other users to give their feedback.

6) Favourites

Users can favourite the artists they are interested in and the work published by these artists will be displayed in the user feed based on the feedback.

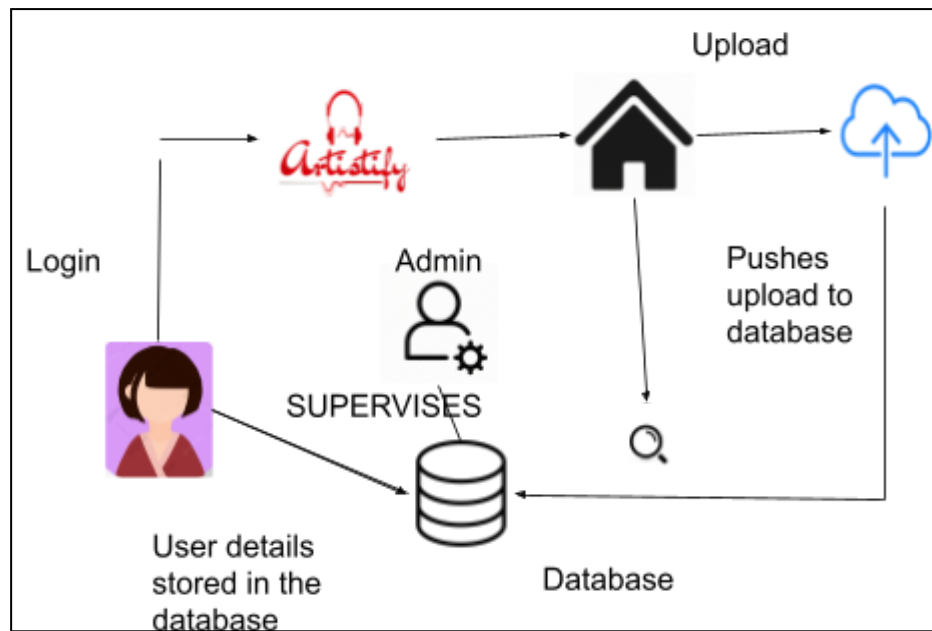

7) Sharing

The user can share any of the content with other users.

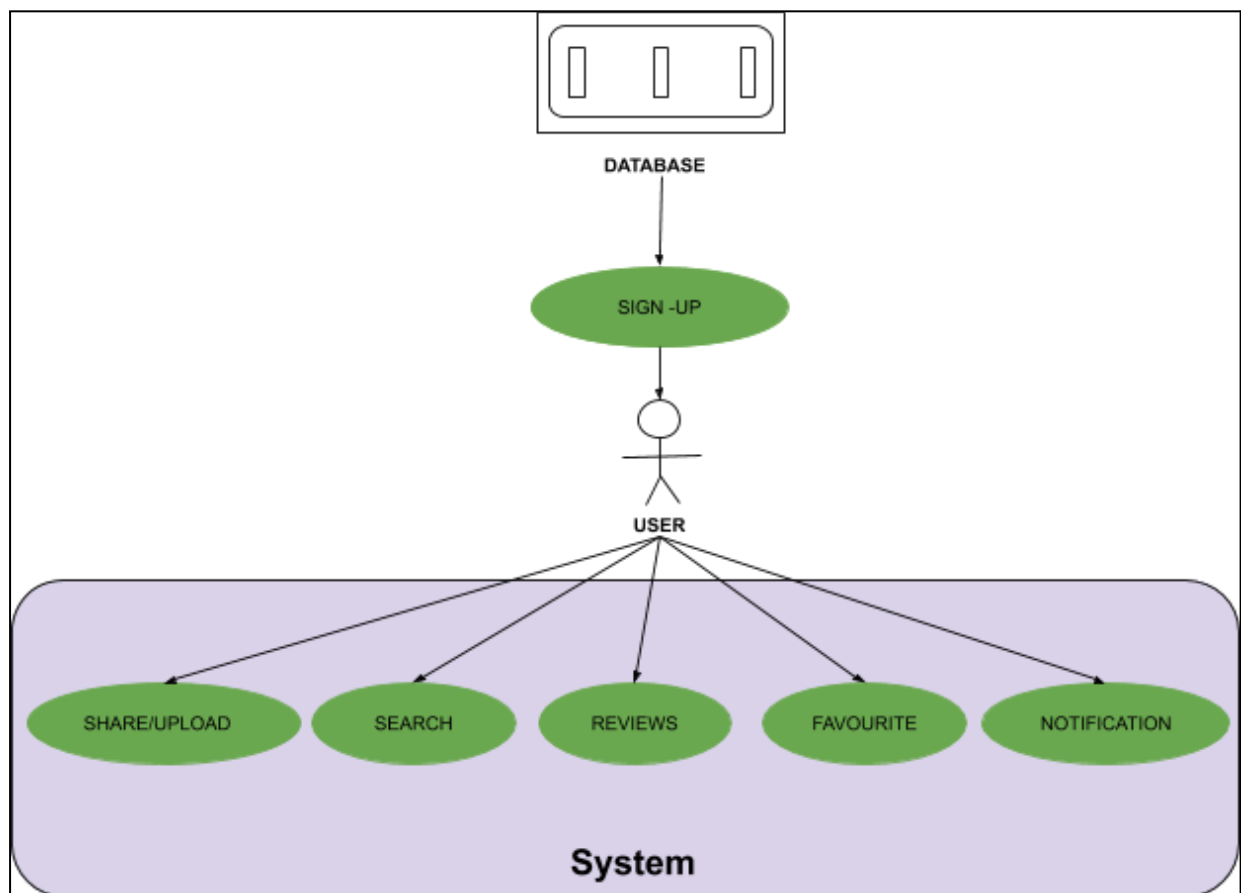

8) Notification

This will display the posts that have been shared by the user.

IV) Process Flow

V) User Case diagram

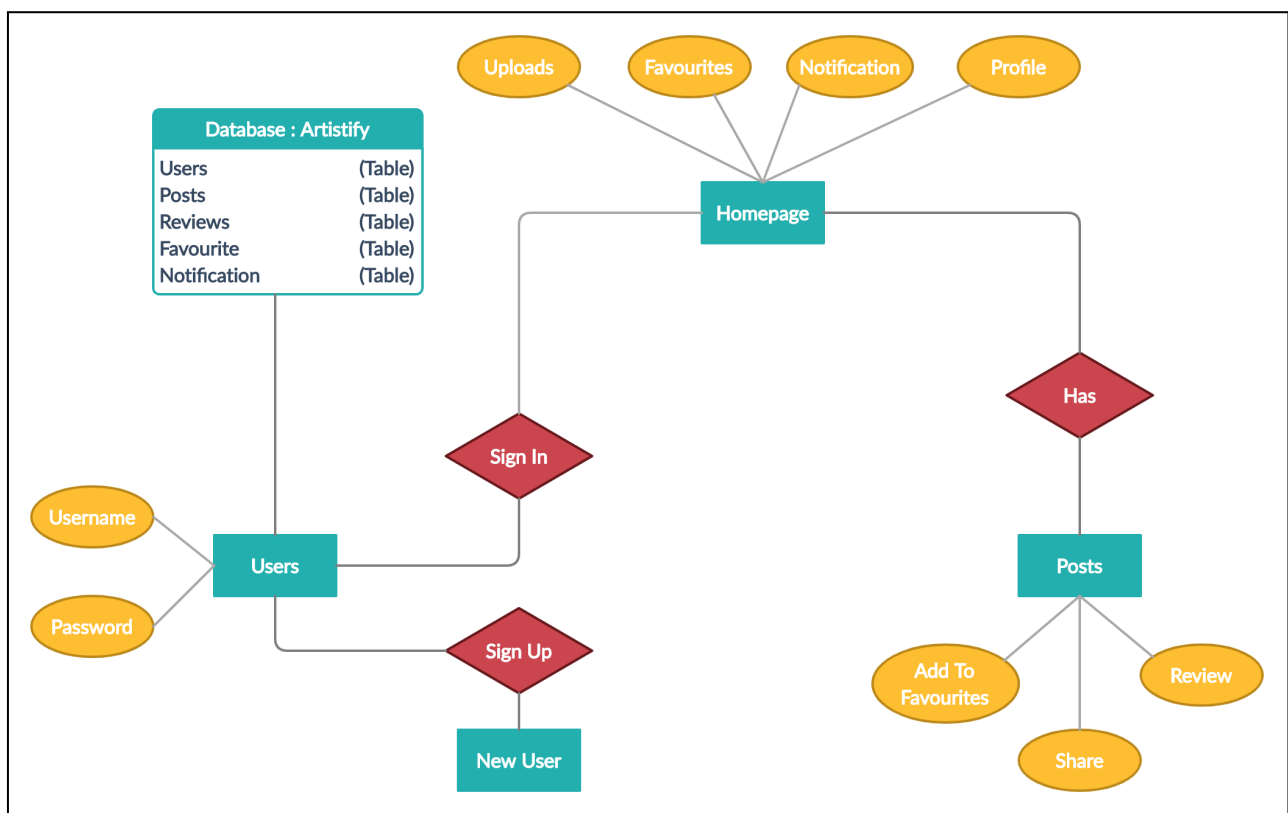

Dependencies

- ❑ Database storage
- ❑ Php libraries

Show Stoppers

- ❑ Uploading time can affect the speed of the process

VI) ER DIAGRAM

VII) Database Details

Database name : Artistify

Tables

Table : Users

No. of Columns : 3

Column Details :

Name	id (Primary)	username	password	pic
Type	int	varchar	varchar	text
Extra	AUTO_INCREMENT			

Sample inputs :

<div><div><div>←</div><div>T</div><div>→</div></div></div>				id	username	password	pic
<div><div><div></div></div></div>	<div><div><div></div></div><div>Edit</div></div>	<div><div><div></div></div><div>Copy</div></div>	<div><div><div></div></div><div>Delete</div></div>	19	Ritik	47872f95a309a50ebd43c2ea39882f6c	DP1.jpg
<div><div><div></div></div></div>	<div><div><div></div></div><div>Edit</div></div>	<div><div><div></div></div><div>Copy</div></div>	<div><div><div></div></div><div>Delete</div></div>	20	Jatin	8c9e5de7349dbbd6dbd07b21efb4282e	DP2.jpg
<div><div><div></div></div></div>	<div><div><div></div></div><div>Edit</div></div>	<div><div><div></div></div><div>Copy</div></div>	<div><div><div></div></div><div>Delete</div></div>	21	Megha	8e955e947a7f8b73665ff055d6508f28	DP3.jpg

Table : Posts

No. of Columns : 8

Column Details :

Name	post-id (Primary)	user-id	type	title	description	img	audio	content
Type	int	int	int	text	text	text	text	longtext
Extra	AUTO_INCREMENT							

Sample inputs :

<div>← T →</div>			post-id	user-id	type	title	description	img	audio	content

Table : Reviews

No. of Columns : 4

Column Details :

Name	id (Primary)	post-id	user	comment
Type	int	int	varchar	longtext
Extra	AUTO_INCREMENT			

Sample inputs :

<div><div>↩️⤵️</div><div>⬅️⤴️</div></div>				id	post-id	user	comment
<input type="checkbox"/>		Edit	 Copy  Delete	7	40	Ritik	A nice song but could have done better
<input type="checkbox"/>		Edit	 Copy  Delete	8	38	Ritik	I like it very much

Table : Favourite

No. of Columns : 3

Column Details :

Name	fav-id (Primary)	user-id	post-id
Type	int	int	int
Extra	AUTO_INCREMENT		

Sample inputs :

				fav-id	user-id	post-id
<input type="checkbox"/>	 Edit	 Copy	 Delete	8	19	40
<input type="checkbox"/>	 Edit	 Copy	 Delete	9	21	36
<input type="checkbox"/>	 Edit	 Copy	 Delete	10	22	35
<input type="checkbox"/>	 Edit	 Copy	 Delete	11	22	36

Table : Notification

No. of Columns : 4

Column Details :

Name	not-id (Primary)	user1	user2	post-id
Type	int	int	int	int
Extra	AUTO_INCREMENT			

Sample inputs :

					not-id	user1	user2	post-id
<input type="checkbox"/>	 Edit	 Copy	 Delete		18	19	21	40
<input type="checkbox"/>	 Edit	 Copy	 Delete		19	19	22	38
<input type="checkbox"/>	 Edit	 Copy	 Delete		20	21	22	35
<input type="checkbox"/>	 Edit	 Copy	 Delete		21	22	20	41
<input type="checkbox"/>	 Edit	 Copy	 Delete		22	20	19	42

IX) Snapshots

1) Landing Page

2) Sign Up Page

The Sign Up page features a dark blue background. At the top, a dark blue navigation bar contains the 'Artistry' logo on the left and links for 'Home', 'About', 'Gallery', 'Contact Us', 'Login', and 'Create an account' on the right. The 'Create an account' link is highlighted in red. On the right side of the page, a white rounded rectangle contains the 'NEW USER' sign-up form. The form includes three input fields for 'Username', 'Password', and 'Confirm Password', each with a label above it. Below these fields is a link that says 'Already a member? Sign In.' and a prominent red 'SIGN UP' button.

3) Sign In page

The Sign In page features a dark blue background. At the top, a dark blue navigation bar contains the 'Artistry' logo on the left and links for 'Home', 'About', 'Gallery', 'Contact Us', 'Login', and 'Create an account' on the right. The 'Create an account' link is highlighted in red. On the right side of the page, a white rounded rectangle contains the 'WELCOME' sign-in form. At the top of the form is a circular placeholder for a user profile picture. Below this is the word 'WELCOME' in large, bold letters. The form includes two input fields for 'Username' and 'Password', each with a label and an icon (a person for username, a lock for password) to the left. Below these fields is a link that says 'New here? Sign Up.' and a prominent red 'SIGN IN' button.

i) for photograph

ii) for story

iii) for poem

The screenshot shows the 'Showcase your Poetry' form on the Artistry website. The form is a white modal box with a close button (X) in the top right corner. It contains the following fields:

- Title :** A text input field.
- Description :** A text input field.
- Start Writing Here.....** A large text area for the poem.

At the bottom right of the form are two buttons: 'Close' (grey) and 'Save' (red). Below the form, a preview of a poem is visible:

Poem :
Do not go gentle into that good night,
Old age should burn and rave at close of day:

iv) for song

The screenshot shows the 'Share your music' form on the Artistry website. The form is a white modal box with a close button (X) in the top right corner. It contains the following fields:

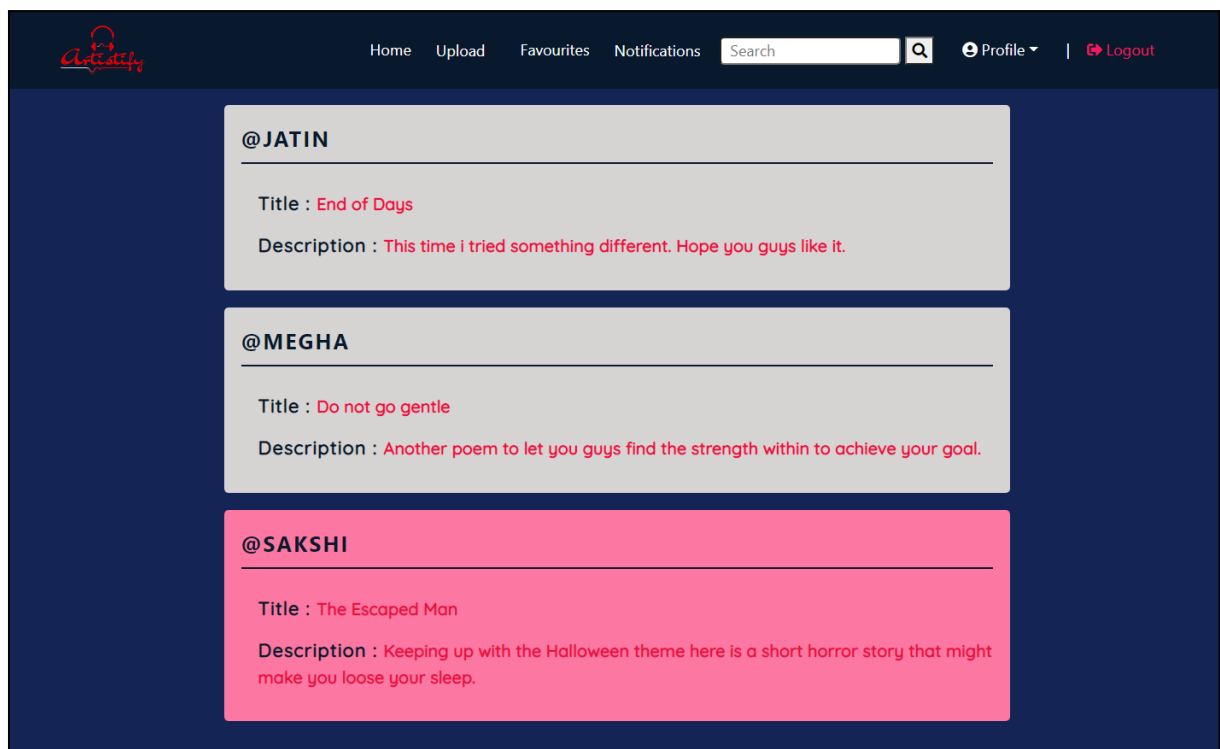

- Title :** A text input field.
- Description :** A text input field.
- Choose File** A button to upload a file, with the text 'No file chosen' next to it.

At the bottom right of the form are two buttons: 'Close' (grey) and 'Save' (red). Below the form, a preview of a post by @MEGHA is visible:

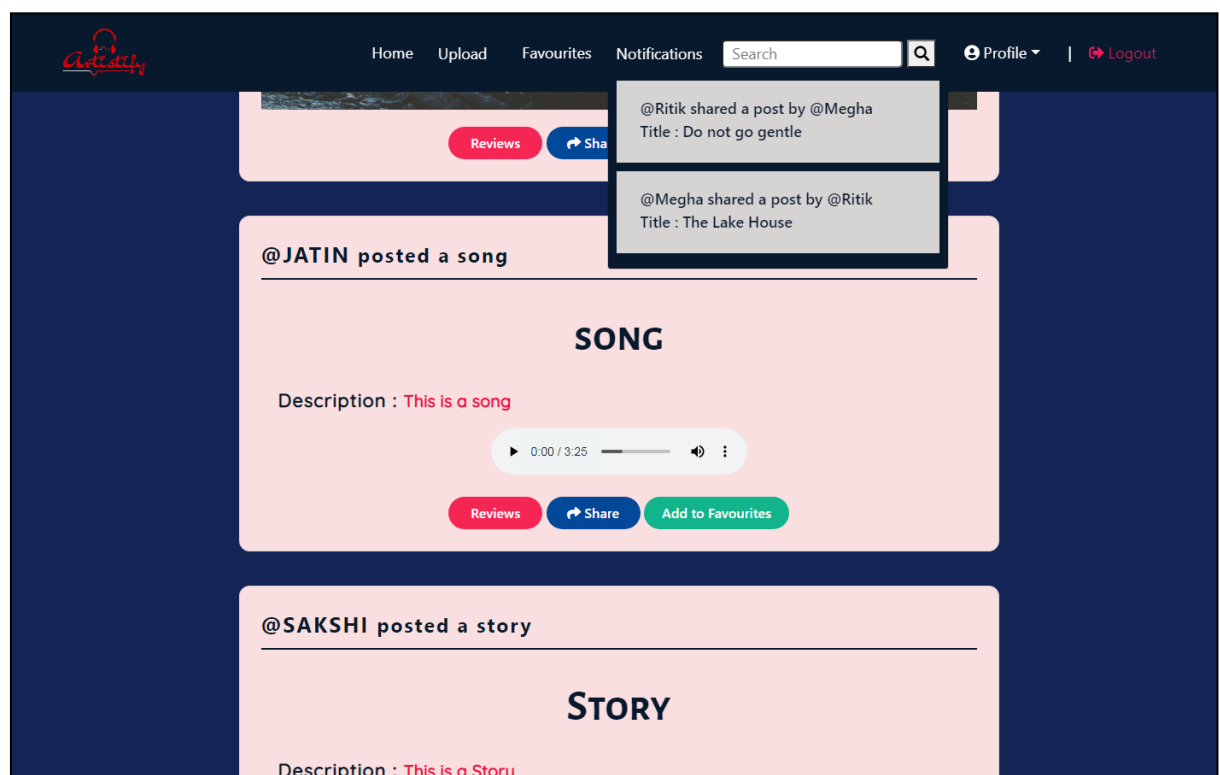

@MEGHA posted a poem

Title : Do not go gentle
Description : Another poem to let you guys find the strength within to achieve your goal.
Poem :
Do not go gentle into that good night,
Old age should burn and rave at close of day:

Conclusion

This project helps provide a platform for the artists to showcase their talent. The artists can easily upload their desired content on the site. This helps bring people together who share similar interests. It also helps in maintaining a systematic and structured database for newly as well as old content uploaded by users.

The purpose of the project is to help people come together on a social platform and develop their artistic side. The people will be able to publish their content on a large scale. They will be able to improve their skills through constructive feedback provided by the audience.
